

Canyon Bryson

AI Engineer · Full-Stack Developer

Draper, UT · 385-427-4849 · canyonbryson@gmail.com · canyonbryson.com

SUMMARY

AI Engineer and Full-Stack Developer with 7 years of experience shipping production systems end-to-end. I believe the writing code using repeatable and robust patterns will significantly speed up development, reduce mistakes, and ensures a consistent UX.

CORE COMPETENCIES

Core Strengths: Computational math + CS foundation · AI/ML product builder · Full-stack delivery · Product-first engineering · Detail-oriented execution

Full Stack: Next.js / React · React Native · Flutter · TypeScript · Node.js · PostgreSQL · DynamoDB

AI / ML: LLM integration · Prompt engineering · RAG systems · ML pipelines · Fine-tuning · Guardrails

Infrastructure: AWS · Vercel · Docker · CI/CD · Convex · Supabase

EXPERIENCE

Lead Engineer — OrthoAthlete

2024 – Present

- Built **INJURED**: athlete recovery platform across mobile + web with real-time sync
- Shipped **OrthoHCP** (AI video interviewer for provider onboarding) in 30 days from zero to production
- Developed many more projects like **OrthoAgent**, **OrthoData**, **OrthoAthlete**, and **OrthoPatient**

Lead Developer — Riddler Road Rally

2023 – 2024

- Sole developer for interactive scavenger hunt platform (web + mobile)
- Implemented real-time multiplayer features using serverless AWS architecture

Software Developer — AIDIA

2021 – 2023

- Full-stack delivery across React, Astro, and SolidJS on multiple architectures (SQL/NoSQL, event-driven)
- Built custom image recognition systems, automation tools, and mobile apps
- Trained and mentored new hires on software best practices and SOPs

Networking Developer — Utah State University

2020 – 2021

- Built internal tools for the networking team using Django and React
- Maintained PostgreSQL-backed systems and dashboards

Freelance Developer — Independent

2018 – Present

- Delivered client-facing web apps and automation tools for small teams
- Owned discovery, build, and delivery from prototype to production

EDUCATION

B.S. Computational Mathematics — Utah State University

May 2024

Computer Science Minor · GPA 3.71
